

## 8. Nightcliff Family Centre has Storypark

Storypark is an online system that allows educators to upload pictures and 'tag' individual families so that only your family can see the pictures of your child. If there are group photos, then several families will be 'tagged' and therefore will all see the picture.

Once you're using Storypark, you can invite family members to access some of the pictures of your child also. This is great for families in Darwin as many of us have family down south or even overseas.

Storypark will not replace our regular child portfolio folders located in the children's room with the educators' observations and evaluations. We will be doing both.

### **Permission**

I agree to Storypark being used for communication of stories and pictures of my child.

Child's name: \_\_\_\_\_ DOB: \_\_\_\_\_

My email address is: \_\_\_\_\_

(email is the way you will be invited to be a part of the Storypark system)

Parent name: \_\_\_\_\_

Signature: \_\_\_\_\_
